

Surgical lamp LED3 SC, single colour

LED-illuminating- systems for surgery

New dimension of light

Lamps with latest LED-technology facilitate your daily working by offering fully-developed, innovative features:

- ☑ Multi-facetted reflector system
- ☑ Excellent illumination depth
- ☑ Accurate colour reproduction
- ☑ Integrated OT-Laser-Pointer (optional)
- ☑ Integrated video system (optional)

Technical specifications	LED3 SC
Central light intensity at a distance of 1 meter	130.000
Colour rendering index R(a) at 4300 Kelvin	95
Focusable light field size (in cm)	17 - 28
Colour temperature (Kelvin)	4500
Electronic light intensity control at the lamphead	Standard
Dimming range	5 - 100 %
Temperature increase in head area	0,5° C
Total power consumption	45 W
Number of LED's	28
Lifespan of LED's	> 40.000 h
Working distance (in cm)	60 - 150
Height adjustment (in cm)	118
Diameter of the lamp head (in cm)	57
