X-Ray Protective Glasses – Model BR331

The X-ray protective glasses have flat glasses and a radiation protection of Pb 0.75 mm. The special plastic shells, which are lined on the inside with coated x-ray protective material up to the level of the earpieces, offer lateral protection of Pb 0.50 mm. The frame is made of an extremely durable plastic which ensures easy cleaning and good resistance to chemicals (disinfectant agents).

The BR331 comes with a storage case and a soft head band.

The quality features of our glasses make them perfect for the use in the medical environment:

- Great frame stability through high-grade synthetic materials
- Optimized balance of sturdy, light-weight frame and lenses
- Minimized risk of injury due to shape and used components
- Low allergy risk due to carefully chosen materials
- Easy cleaning and superior resistance against chemical influences (disinfection)
- Wide and flexible head band for a comfortable fit

For this model prescription lenses are available: single and bifocal.
